**1064  
Lancaster County  
Comb-back Rocker  
Pennsylvania Vase Leg**

**Height 48"  
Width 25 "  
Seat Depth 16 1/2"  
Seat Width 21 1/2"**

Windsor chairs were rarely made as rockers originally in the eighteenth century. Most rockers we added during the first part of the nineteenth century when the Boston rocker became fashionable. Ever resourceful, early Americans used pieces they already had to serve a new purpose. Still, we think rocking chairs are beautiful and useful forms.
