## 2102 Lincoln County Dish Cupboard

Height 87 1/2"

Width 59"

Depth 17 1/2"

Available in Pine or Cherry

This piece is based on an original actually made in Canada. There was a migration of Pennsylvania Germans into Lincoln County. The furniture makers brought with them a strong Pennsylvania influence but as always developed their own regional design sense. This piece is unusually tall which would never have been made in early New England.
