## 3043 Bonnet-top Secretary

Height 89 1/2"  
Width 37 3/4"  
Depth 21 1/2"

Based on a piece made by B. Frothingham of 18th century Massachusetts this Secretary Desk is easily the most complicated and time consuming piece that we make. The piece has no less than twenty four dovetailed drawers and thirteen hand carvings. A piece that cannot be explained or described well in a catalog. Even if you never intend to own one, it is worth a trip to a dealer just to see it.

Available in Cherry and Tiger Maple
