

**3055
Roxbury Tall Case Clock**

**Height 90"
Width 20 1/4"
Depth 9 7/8"**

Our Tall Case Clock is an extremely precise and faithful reproduction of an 18th century Simon Willard Clock made in Roxbury, Massachusetts. Unlike any piece we have made the wood working is only a portion of the overall composition. The works are a German brass eight day movement with an added moon phase. The face is hand painted with all the skill of the original. The brass is hand cast. Clearly this clock is as much an American Masterpiece today as it was over two hundred years ago.

Available in Cherry and Tiger Maple
