Boston Block Front Chest

Height 35 2/3"

Width 38 1/4"

Depth 19 1/2"

Note: Polished brass shown is an additional Charge

Block front styles were made almost exclusively in eastern Massachusetts and Rhode Island. This Boston chest has a more vertical emphasis in its proportion than most four drawer chests of the period to accentuate the block front design. The wonderful oversize brasses are typical for the piece and a sign of prosperity for the owner.

Available in Cherry and Tiger Maple
