Block End Oxbow Chest

Height 34 1/4" Width 39" Depth 20 3/8"

The Block End Oxbow is also known a reverse serpentine from the undulating shape of the face. Some early pieces re curve smoothly into the chest side but the small flat along the edge is more difficult and more desirable in antiques. The drawers are cut from 10/4" stock and the Ball & Claw feet are hand carved.

Available in Cherry and Tiger Maple
